

THE BEVEL AND STAIN
GLAZING COLLECTION

Established 1979

Sun Trade

Your Glass & Glazing Specialists

Our modern technology products bring all the clarity and beauty of traditional window treatments but without the maintenance worries. These modern day designs are more striking than their traditionally made counterparts and last considerably longer.

Adding the personal touch of lead, coloured glass or bevels is very easy to achieve. Our definitive range of styles is inspired by the decorative influences of past ages and includes classical and traditional floral designs as well as 'Art Nouveau' and contemporary styles.

Each of our designs are carefully prepared using high specification, colour-stable polyester film with built in U.V. inhibitors and natural finish pure lead strips. The designs are equally effective when applied to clear or patterned glass.

Bevelled Glass

The modern day materials we use allow our in-house expert to produce bevels to cater for any type of home. Available in double and triple glazed units to provide aged or timeless finishes alike.

Leaded Windows

Modern day decorative lead is easy to clean and allows the use of stains, colours and decorative inserts. The most common designs are diamond and square - often used with colour overlays.

Georgian Bar

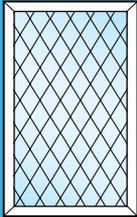

The Georgian Bar style is aesthetically pleasing with almost any type of house and complements many door designs. Available in white, foiled, gold and chrome finishes to provide maximum flexibility.

Astragal Bar

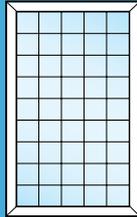

Astragal Bars enhance the look of any type of property by giving them the traditional Georgian appearance of individual panes. Available colour coded to the profile allowing greater flexibility.

Lead Styles

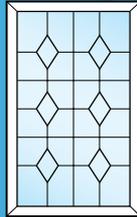

Lead styles provide a traditional and individual touch of flair to any type of installation. Providing the elegant finishing touch that is valued by so many homeowners they can be a key ingredient in realising the true character of a building. Available in 6mm, 9mm and in a choice of antique, silver or gold, the range caters for any type of property.

Texture Glass Range

For privacy, style or to allow more light into internal rooms, the textured glass range gives you a fantastic range of attractive options. The advantages of the textured glass range are easy to see allowing maximum light in while maintaining your chosen level of privacy and also forms an attractive decoration feature itself.

* Please note the maximum obscure glass size available is 1320 wide x 2140 high. Any pattern over these sizes will need to be rotated to fit.

* Due to the manufacturing process, the pattern of Warwick textured glass is completely random and no two pieces are the same.

Stained & Bevelled Fanlights

Adding the personal touch of a leaded, coloured glass effect to a fanlight is very simple to achieve. Each design in our definitive collection has been inspired by the decorative influences of past ages. Including classical and traditional floral designs, as well as more contemporary designs, our range has a design that caters for any type of home and home owner.

Through our in-house master glaziers, not only are we able to recreate all of the bevels and stains shown in this brochure, but we can replicate almost any design you require. Whether you want a subtle sun set or dynamic fleet of ships, using a combination of hundreds of films, bevels and pattern glass effects we can cater for your exact needs.

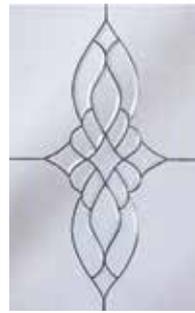

Residential Stained & Bevelled Glass Door Designs

By subtly combining the essential elements of colour, shape and shade our decorative glass can transform any entrance into a defining statement of elegance and style.

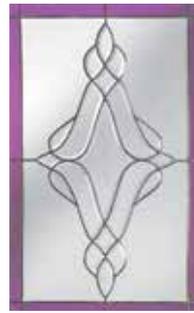

Our stained panels are fully detailed on both sides so they look equally as good viewed inside or out. Across is just a small selection of what we offer, if you see anything you'd like us to match specifically please contact us for details.

Bevelled Doors Dual Glazed

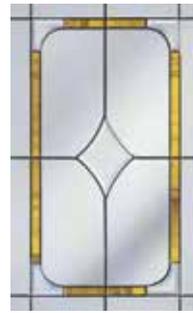

Our range of bevels and stains cater for any type of door design. For those who wish to have a split door design this range is for you! Clear glass bevels provide exceptional depth and radiance with their dimensional brilliance - or choose from a variety of colours to further enhance the radiance of the chosen design.
